

# Arctic Volume Ivory

Arctic Volume Ivory has a natural ivory shade and together with its matt surface provides the best possible readability. The paper is produced without the addition of optical brightening agents, creating a pleasing nuance and making this paper a particularly sound environmental choice. Arctic Volume Ivory combines a natural feel with a genuine surface for the best possible print quality, making the paper especially suitable for fine, exclusive printed matter. Arctic Volume Ivory is available in grammages from 115 to 250 g/m<sup>2</sup> and can be ordered both in sheets and reels.

Arctic Volume Ivory standard products are available as FSC® – The mark of responsible forestry. [www.fsc.org](http://www.fsc.org). FSCC007342 certified.
