

Statement

Deforestation-free products

Arctic Paper hereby declare that based on our due diligence procedures all relevant paper products produced in our mills are deforestation-free and do not cause deforestation anywhere in the world.

All fibers that enter Arctic Paper mills are certified by FSC® and PEFC forests. FSC® and PEFC ensure that the forest has been managed in a sustainable manner and that no deforestation has occurred.

It is the customer's responsibility to assure the appropriate, safe and legal use of the paper products.

The user of the paper have to ensure the suitability for the particular purpose for which the user intend to use the paper and to obtain all necessary information for such assessment. For packaging of foodstuffs that may affect the physical properties of the paper, or when needed for other reasons, it is recommended to use a suitable barrier.

The information provided in this declaration is provided based on our actual knowledge about the paper products. We assumes no responsibility for any deviations from this information which is due to facts or circumstances beyond our actual knowledge about the paper and its components. The information in this declaration is subject to the limitations of liability set out in General Trade Rules or other separate written agreement for the sale of paper products between Arctic Paper Munkedals AB and the customer in question.
